2. Main Feature

The August CR245 Wireless CarPlay & Android Auto Adapter is designed to convert your vehicle's factory wired CarPlay or Android Auto system into a seamless wireless connection. Featuring automatic pairing, stable transmission, and plug-and-play operation, it allows instant access to navigation, music, calls, and voice assistants without the hassle of cables. Its compact design ensures easy installation while delivering a smarter and more convenient driving experience.

- Supports Apple CarPlay
- Supports Android Auto
- Plug-and-play Installation
- Automatic Reconnection
- Fast and Stable Connection

3. Box Contents

		
Wireless Adapter	USB-A(F) to USB-C(M) Cable	Quick Start Guide

4. Product Parts and name

① LED Indicator

② USB-A (Power & Data)

5. Check the Compacity

Please ensure your **mobile phone** is running **iOS 10 or later** or **Android 11.0 or later**. Earlier operating system versions are not supported.

ios 10 +

Android 11.0 +

Method 1:

Connect your iPhone or Android phone to your car via a USB cable to check whether the logo appears on the car's display screen.

Method 2:

Check the compatibility list below or contact your car manufacturer to confirm whether your vehicle is supported. Scan the QR code to view supported models.

CarPlay

Android Auto

Note:

This product is designed for vehicles equipped with a factory-installed wired Apple CarPlay or Android Auto system.

Compatibility may vary depending on your vehicle model and mobile phone. For detailed compatibility information, please refer to:

- The official Apple CarPlay website
- The official Android Auto website
- Your vehicle manufacturer's website or user manual

6. Connection

1: Start the car and turn on the Bluetooth and Wi-Fi functions on your mobile phone.

Bluetooth

Wi-Fi

2: Locate the USB-A data transfer port and plug in the adapter.

Note: Do not use the cigarette lighter socket or a charge-only USB port.

3: Pair the CR245 via your phone's Bluetooth and follow the pop-up prompts to complete the connection. Allow all permission requests. Once connected, your phone will mirror to the car display.

Operation Notes:

1. The wireless adapter first uses Bluetooth to pair your phone with the car, then switches to Wi-Fi to maintain the wireless connection.
2. Ensure that the adapter's blue power indicator light is on.
3. Confirm that your car supports the original wired CarPlay or Android Auto system.
4. The dongle can be paired with multiple iPhones, but it cannot connect to more than one at a time. Before pairing a new phone, disconnect the Wi-Fi and Bluetooth on the currently connected device.
5. By default, the system reconnects to the last used phone. If you wish to use a different phone, you will need to connect it manually.

7. Indicator Light Description

1. The product defaults to CarPlay mode. When it is plugged into the car and functioning normally, the green indicator light will flash.
2. When the product switches from CarPlay mode to Android Auto mode, the blue indicator light will flash.
3. Once your mobile phone is successfully mirrored to the car, the indicator light will display multiple colours.
4. **Fault indicator:** If the indicator light is off, or if the green or blue light remains constantly on, this indicates a communication fault between the device and the vehicle.

8. Product Specifications

Input	5V / 1A
Working Temperature	-10°C to 60°C
Mobile Phone Support	iPhone 8 or above (iOS 10 or later, updated to the latest version); or Android phones supporting Android Auto 11.0

9. Troubleshooting

Q: My phone's Bluetooth and Wi-Fi are turned on and not in use, but it does not reconnect to the adapter automatically.

A: If auto-reconnection fails occasionally, unplug and reconnect the adapter. If it has never reconnected automatically, try the following:

1. Check whether Auto-Connect is enabled in the CarPlay settings.
2. Ensure your phone settings are correct:
 - Go to Settings > WLAN > Ask to Join Networks and select Notify.
 - Go to Settings > Wireless LAN, tap the icon next to the adapter's Wi-Fi name, and turn on Auto-Join.
3. Delete the Bluetooth pairing record on your phone. Restart your phone and pair it again with the adapter.

Q: The audio and video are not synchronised when playing videos.

A: Even with wired CarPlay, a slight audio delay may occur when watching videos. This is because video transcoding is more complex than audio processing and takes longer. This is a normal characteristic of CarPlay and not a fault with the adapter. The device uses a dual-core chip to improve transmission speed.

Q: There is a delay when using the steering wheel controls to change songs.

A: Wireless CarPlay and Android Auto systems typically have a delay of 1–2 seconds for media audio. This helps prevent data loss and ensures stable sound quality. This delay is normal.

Q: I tried to use Siri voice commands, but there was no response.

A: Search for Siri in your phone settings and ensure that "Hey Siri" is enabled and your voice profile is set up. Please say "Hey Siri" before each voice command.

10. Warranty

This product is guaranteed for twelve months from the date of the original purchase. In the unlikely event of any defect arising due to faulty materials or workmanship, the unit will be either replaced or repaired free of charge (where possible) during this period. An alternative product will be offered in case the product is no longer available or repairable.

This warranty is subject to the following conditions:

- The warranty is only valid within the country where the product is purchased.
- The product must be correctly installed and operated in accordance to the instructions given in this user manual.
- The product must be used solely for domestic purposes.
- The warranty only covers the main unit, and does not cover the accessories.
- The warranty does not cover the damage caused by misuse, negligence, accident and natural disaster.
- The warranty will be rendered invalid if the product is resold or has been damaged by inexperienced repairs. The manufacturer disclaims any liability for incidental or consequential damages.
- Please consult our customer adviser before returning any product; we are not responsible for any unexpected product returns.
- Any faulty product must be kept and returned in the original packaging with all the accessories and the original copy of the purchase receipt.

The warranty is in addition to, and does not diminish, your statutory or legal rights.

Industry Canada Statement

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept interference, including interference that may cause undesired operation of the device.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy. Therefore, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorientate or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

No Unauthorized Modifications: Do not make any changes or modifications to this product without the prior express written approval of August International Ltd. Any changes or modifications made without express written approval could void the user's authority to operate this product.
