# User Manual

Thank you for purchasing the August DVB600 Android and Satellite TV Box. This user manual is designed to familiarise you with all the features of this device. Please take the time to read this user manual carefully, even if you are already familiar with a similar product.

## Safety

To ensure the safety of you and others, please read the Safety Instructions before using this device. Please do not disassemble the product, it can be unsafe and will invalidate the manufacturer's warranty.

## Disposal

Please ensure the product and accessories are disposed of in compliance with the WEEE (Waste Electrical and Electronic Equipment) Directive and any other regulations applicable to your country.
Always check with the environmental agency and any other relevant authorities for current disposal regulations.

## Customer Service

You can contact us by phone on: +44 (0)845 250 0586 or by email at: service@augustint.com should you require further technical support or customer service.
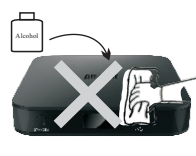

# 1. Safety Instructions

■ **Storage and Use**

| | |
|---|---|
| Keep this machine away from hot or cold places. Working temperature of this device is 0° C ~ 50° C, storage temperature is -10°C ~ 60°C. | Keep the Receiver away from water or damp environment. |
| Never expose the receiver to moisture, dust oil or smoke. | Avoid dropping or exposing to impacts. |
| Never put this machine in containers that are unstable as this may cause damage. | Never extrude or chafe this machine with sharp objects. |

■ **Maintenance**

Please unplug all connection wires before start cleaning this machine.

| | |
|---|---|
| Please wipe this machine and buttons with a softcloth. Only clean the screen with professional LCD TV screen cleanser. | Never wipe this machine with an abrasive cloth, detergent powder, alcohol and benzene etc. various propellants or chemical cleaning products. |

Never try to repair or modify this device yourself, this will invalidate the warranty, may cause further damage to the device and could cause personal injury. In the case of any fault, please turn off the device immediately and contact August International customer services or your retailer to arrange a professional repair.

## 2. Main Features

- Receives DVB-S & DVB-S2 Freesat TV
- Smart Box with Android 4.4 KitKat
- Time-Shift with Live Recording
- Supports Video/Music/Photo Playback
- HDMI Output up to 1080p

## 6.2 Audio Optical Output Connection

1. Insert the audio optical cable to the audio optical output on the DVB600.
2. Insert the audio optical cable to the audio optical input on the receiver device.

Optical connection cable to compatible speaker system
## 6.3 HDMI Output Connection

HDMI connection cable to TV

Once connected, select the input source on you TV to correct HDMI port.

## 6.4 Ethernet Connection

1. Connect the DVB600 to your router using an Ethernet cable.
2. Select 🔲 from the home screen.
3. Select 'Advanced option'.
4. Select 'Proxy settings' and press <**OK**> to change the proxy hostname.
5. Select 'IP settings' and press <**OK**> to change the IP setting between DHCP and Static.

Wired Network

Broadband Internet connection

Internet

Broadband Router/Modem
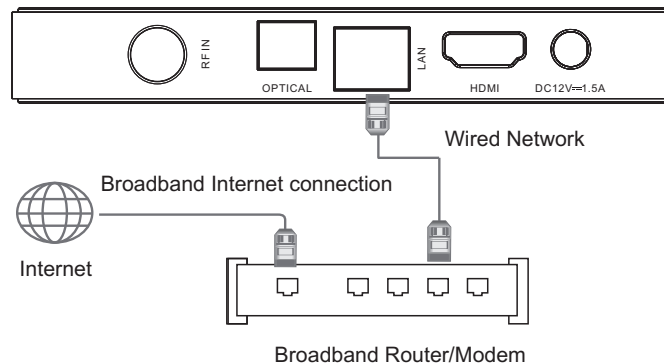

**Note:** If DHCP is enabled on your router, the DVB600 will automatically connect to the router once the Ethernet cable is inserted; If DHCP is not enabled on your router, you will need to manually input an IP address.

## 6.5 RF Cable Connection
## 6.6 Wi-Fi Connection

The DVB600 is able to connect wirelessly to your router. Please note that, for video streaming, an internet bandwidth of at least 2Mbps is recommended. To stream HD movies from an internal network an Ethernet cable connection is recommended.

**Note:** The DVB600 will disable the Wi-Fi function when the Ethernet cable is inserted.

1. Select          from the home screen.
2. Under available networks, it will list three best signal network. Select 'See all' to see all the available networks.
3. Use <▲> or <▼> to select the network and press <**OK**> to confirm.
4. Enter the network password if requested.
5. Select 'Next' from the on screen keyboard to save and connect to the network.

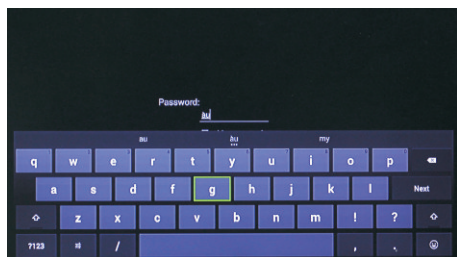

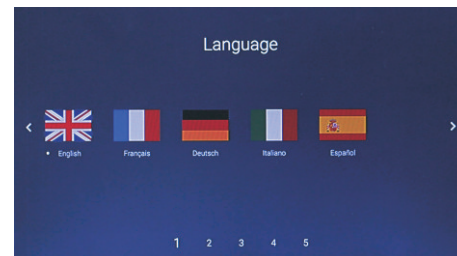

# 7. Operation

## 7.1 Initial Installation

Important: Ensure the satellite dish and the cables are properly installed to get the best signal.
A setup wizard will be run on the first time use of the DVB600. All the settings can be changed later.
1. Use <◄> and <►> to select your language and press <**OK**> to confirm.

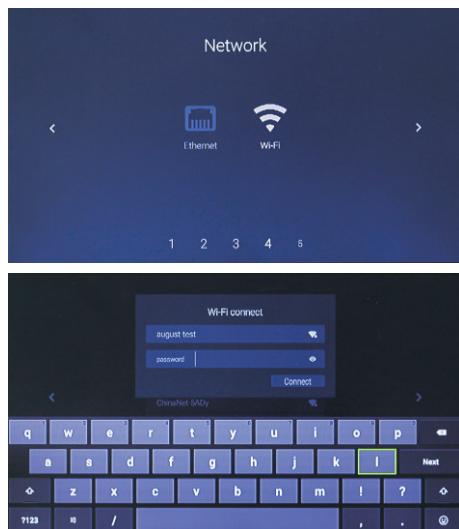

2. Use <▲> and <▼> to select the resolution and press <**OK**> to confirm.

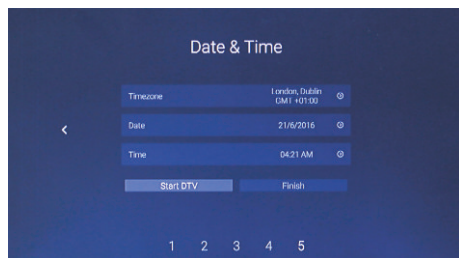

3. Use <▲> and <▼> to adjust the screen size and press <**OK**> to confirm.

4. Select the type of network connection. Press <**OK**> to confirm or change the settings for Wi-Fi network.

5. Use <▲> and <▼> to select between 'Timezone', 'Date' and 'Time', press <**OK**> to enter.

5.1. Use <▲> and <▼> to change the timezone and press <**OK**> to confirm.
5.2. Use <▲> and <▼> to change the date; Use <◄> and <►> to change between year, month and day. Use <►> to highlight 'Set' then press <**OK**> to confirm.

5.3. Use <▲> and <▼> to change the time; Use <◄> and <►> to change between hour, minute and AM / PM. Use <►> to highlight 'Set' then press <**OK**> to confirm.
6. Select 'DTV' to finish the settings and start DTV; select 'Finish' to go to the home page. Press <**OK**> to confirm.

**Note:** Freesat Channels are pre-stored on the device and only require the satellite dish to be correctly installed. If your dish is oriented towards the Astra Satellite, you can select finish and go to the DTV App to start watching TV without having to perform a scan.

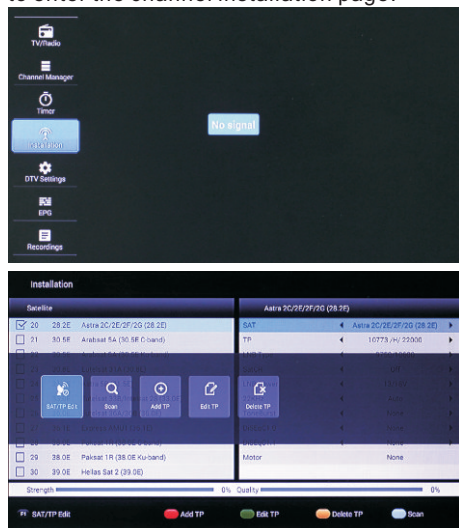

## 7.2 DTV
The DVB600 can be used to watch, record and playback satellite TV. To switch to DTV mode select 'DTV' from the home screen.
**7.2.1 Channel Scan**
If there are no channels saved on the DVB600, a channel scan will
have to be performed. Select 'Installation' in the 'DTV' page and
press <**OK**> to enter the channel installation page.

Press< 📃 > to list all operation

**7.2.1.1 Satellite Selection**
1. Use <▲> and <▼> to highlight the desired satellite from the left
hand side of the screen. Detailed information will be displayed on the
right hand side.
2. Press <**OK**> to select the desired satellite. The signal strength and
quality status will be displayed at the bottom of the screen.

**7.2.1.2 Quick Channel Scan**
If you wish to use the default settings to perform an automatic
channel scan, press < 🔵 > to enter the 'Scan' options. Use <▲> and
<▼> to highlight 'Press OK to scan' then press <**OK**>.

**7.2.1.3 Adding a Transponder (TP)**
Press <F1> to see the default frequency list and enter the 'SAT / TP
Edit'.
1. Press < 🔴 > to add a TP.

2. Use <▲> and <▼> to select the Frequency, Polarity and Symbol
Rate.
3. Use the number pad to input the values for frequency and symbol
rate.
4. Use <◄> and <►> to change the polarity between V (Vertical) and
H (Horizontal).
5. Once finished, select 'OK' or 'Cancel' and press <**OK**> to confirm.

**Note:** TP is in short for transponder. A transponder is a series of
interconnected units that form a communications channel between
the receiving and the transmitting antennas.

## 7.2.1.4 Editing a Transponder

1. Use <▲> and <▼> to select a TP in the list.
2. Press the < ⬭ > to edit the TP.

3. Use <▲> and <▼> to select the Frequency, Polarity and Symbol Rate.
4. Use the number pad to input the values for frequency and symbol rate.
5. Use <◄> and <►> to change the polarity between V (Vertical) and H (Horizontal).
6. Once finished, select 'OK' or 'Cancel' and press <**OK**> to confirm.
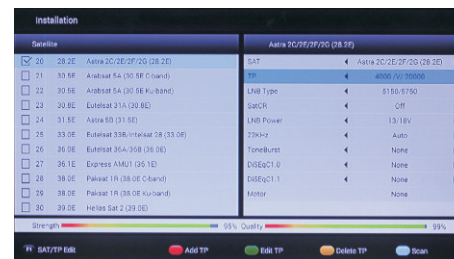

## 7.2.1.5 Deleting a Transponder

1. Use <▲> and <▼> to select a TP in the list.
2. Press < ⬭ > to delete the TP.
3. Select 'OK' or 'Cancel' and press <**OK**> to confirm.

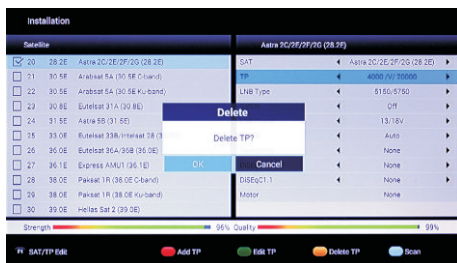

**Note:** You can also use <◄> and <►> keys to change TPs in the detailed page.

## 7.2.1.6 Options

To manually change the following options, use:

1. <▲> and <▼> to select one
2. Then <◄> and <►> keys to change the settings

**- LNB Type**
 Low Noise Block Downconverter. Change this setting to match the range of the converter.

**- SatCR**
Enable this to set the LNB to unique channel, if mutable receivers are using the same coax cable.

**- LNB Power**
Enable this to give power to the LNB to receive vertical channels only (13V), horizontal channels only (18V) or switch between vertical and horizontal.

**- 22KHz**
By turning the 22KHz option on and off, the receiver will automatically switch between the two ports allowing reliable operation that sometimes fails when using a 2X1 DiSEqC switch.

**- ToneBurst**
 Adjust ToneBurst between none, A and B.

**- DiSEqC1.0**
This setting allows you to switch between up to 4 satellite sources.
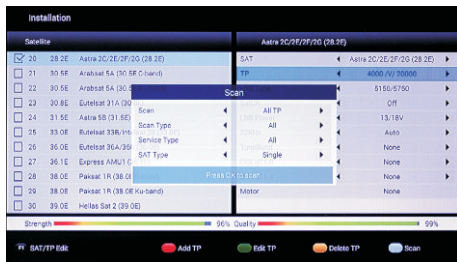

**- DiSEqC1.1**
This setting allows you to switch between up to 4 satellite sourc

English Back to Content

**- Motor**
 If your satellite dish doesn't have a motor, this function will not be available.

**7.2.1.7 Manual Channel Scan**
1. Press < ⬤ > to perform a manual scan.
2. Some settings can be changed before performing the scan.
3. Use <▲> and <▼> to select and use <◄> and <►> keys to change the settings.

**- Scan**
Select between:
• **All TP** to scan transponders which are in the receiver's database (Recommended)
• **Blind**  to scan every possible frequency
• **One TP**  to scan only the currently selected transponder
• **One TP + NIT**  to scan the currently selected transponder and the Network Information Table by the satellite service provider.

*- Scan Type:*
Select between:
• All to save all scanned channels
• FTA to save only the free to air channels (Recommended)

*- Service Type*
Select between:
• **All**  to save TV and Radio channels (Recommended)
• **TV**  to save only TV channels
• **Radio**  to save only radio channels

*- SAT Type:*
Select between:
• **Single**  to search a single satellite
• **Multi**  to search all selected satellite. Not available if only one satellite is selected on the left hand side of the screen.

4. Use <▲> and <▼> to select 'Press <**OK**> to Scan' then press <**OK**> to confirm. If you wish to exit press < ⬑ > and select 'OK', 'Exit' or 'Cancel'.

**7.2.2 DTV Mode**
**7.2.2.1Channel Information**
Press <**F3/INFO**> in TV/Radio mode to show the "now and next program information" for the current channel/station including signal strength and quality. The display also shows whether subtitles and Teletext information are available.

Press <**F3/INFO**> a second time to show detailed information.

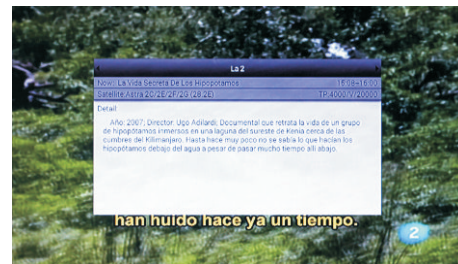

Press <**F3/INFO**> a third time to show the satellite information for the current channel.
To close the channel information, press <**F3/INFO**> a last time. Alternately.

### 7.2.2.2 Channel List
Press <**OK**> in the TV or Radio mode to show the channel list. Press <**TV/Radio**> to switch between the TV and Radio channel list.
Press <▲> or <▼> to select the desired channel, then press <**OK**> to confirm.

Press <  ↩  > to close the list.
### 7.2.2.3 Recall
Press <**RECALL**> in TV or Radio mode to display recently watched channel list. Use <▲> or <▼> to select the channel then press <**OK**> to switch between them.

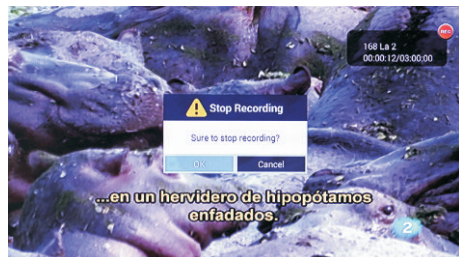

### 7.2.2.4 Record
To record a program, a USB removable storage - such as USB stick or hard drive - with sufficient remaining space is required.
Plug your USB removable storage into one of the USB sockets.
Press <**F4/REC**> to start an instant recording of the program being watched using the pre-set PVR settings.

Press <**F4/REC**> again to show the recording details. This will also enable you to set the recording duration using the number keys and pressing <**OK**> to confirm.

To stop recording, press < ■ >.

**Note:** The recording settings can be changed in the DTV settings. Please refer to section 7.2.4.6.

**7.2.2.5 Time Shift**
To use Time a USB removable storage - such as USB stick or hard drive - with sufficient remaining space is required.
Press < ▶❚❚ > to start Time Shift.

Press < ▶❚❚ > to pause and resume the program.

Use < ◀ > or < ▶ > to jump the recording backwards or forwards by 30 seconds.
Press and hold the < ◀ > or < ▶ > for fast backwards or forwards.
Press < ■ > to end Time Shift.

**Note:** Time Shift settings can be changed in DTV Settings. Please refer to section 7.2.4

**7.2.2.6 EPG**
Press <**F1/EPG**> in TV mode or select EPG from the DTV home screen to view the Electronic Program Guide. This function only supports the program guide for the current and next program, scheduled viewing or scheduled recording of programs.

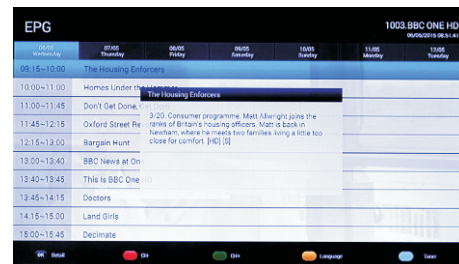

Press < ● > to move to the next channel.
Press < ● > to move to the previous channel.
Press < **OK** > to show the program information.
Press < ● > to set the schedule options.

**Note :** Schedule options only apply on future programs.
- Select 'Record' to set a scheduled recording
- Select 'Cancel this' to cancel
- Press <**OK**> to confirm.

- Select 'Play' to set a reminder for viewing a future program
- Select 'Cancel this' to cancel
- Press <**OK**> to confirm.

### 7.2.2.7 Timer

Timer function allows scheduling recordings or reminders for viewing a future program.
1. Press < 🗒 > to show the menu list then use <▲> or <▼> to select 'Timer'. Press OK to enter.

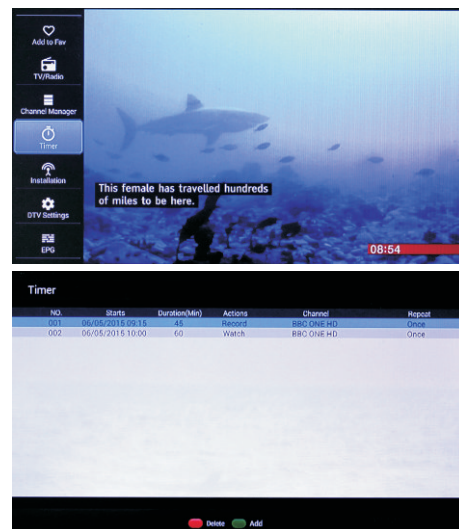

2. Press < ⬭ > to add an event (action)
3. Use <▲> and <▼> to change between options:
- Actions: use <◄> or <►> to change between 'Record' and 'Watch'.
- Repeat: use <◄> or <►> to change between 'Once', 'Daily' and 'Weekly'.

-24-                    -25-

**Note:** When weekly repeat is chosen, select the day for which the reminder or recording should repeat. Use the arrow keys to select the day then press <**OK**> to confirm. Select 'Cancel' to return without saving or select 'OK' to save. The 'Repeat' will highlight the selected date.

4. Select 'Starts' then press <**OK**>  to enter the start time. Use <◀> or <▶> to change between time and date, Use <▲> and <▼> to change the time and date. Select 'Cancel' to return or select 'OK' to save.

5. Select 'Duration (Min)' and use the number keys to change the duration.
6. Select 'Channel' and press <**OK**> to enter the channel list. Use <▲> and <▼> to change the channel or press < ● > to find a channel (search). Press <**OK**> to save.
7. Select 'Cancel' to return or select 'OK' to save the timer.
8.Press< ● > to delete the current chosen timer
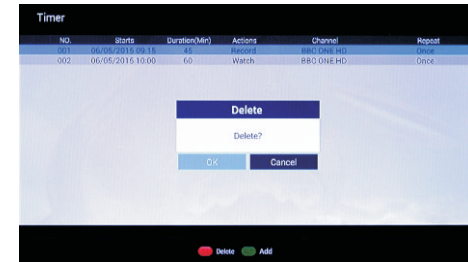

**7.2.2.8 Channel List**
To show the channel list, press <**OK**> in DTV mode or select 'TV Channel' in DTV home screen.
Press <**TV / Radio**> to switch between TV channels and Radio stations.

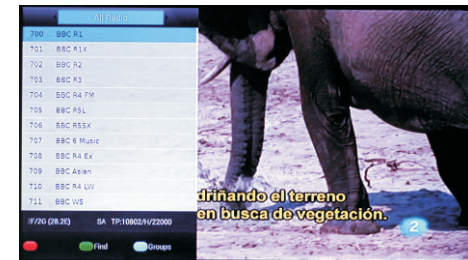

Use <▲> or <▼> to select a channel. The satellite and TP information will be displayed at the bottom of the list.
Press <**OK**> to change the channel.
Use <▲> or <▲> to select one then press <**OK**> to save.
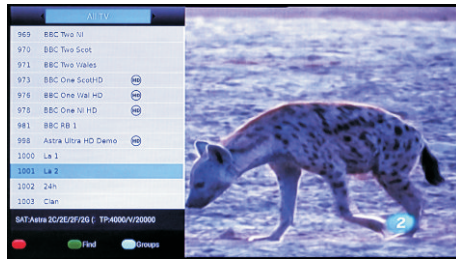

Press < 🟢 > to search a channel by entering its name using the on screen keyboard.

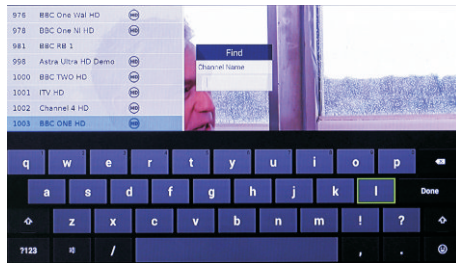

Press < 🔵 > to display channels on different satellite.

**7.2.2.9 Channel Manager**
Select 'Channel manager' in the DTV home screen to enter the channel manager.
The default password is '0000'.
Press <**TV/Radio**> to change between TV and radio channel list.

Use <◄> and <►> to change between groups, use <▲> and <▼> to select channel.

**- Selecting Channels**
Press < 🔵 > to switch between 'Single Select' and 'Multiple Select'.

**Note:** For multiple select: press <**OK**> to select individual channels to add to the multiple selection or press <**F2**> to select all.

**- Deleting Channels**
Press < 🔴 > to delete the selected channel(s). Select 'OK' to confirm or 'Cancel' to return.

**- Moving Channels**

In single select mode press < ⬤ > to move a selected channel up. In multiple select mode, move the selected channel(s) to a highlighted point.

**NOTE:** It is recommended not to modify the Channel List in the UK as it may affect Freesat Channel N° and the working condition of the box.

**- Locking a Channel**

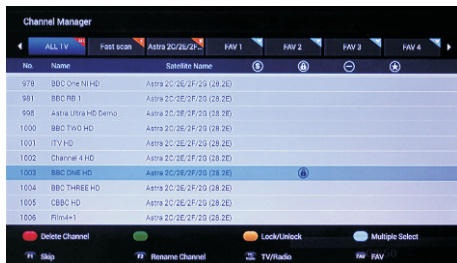

Press the yellow button to lock / unlock the selected channel(s).
The icon 🔒 will show for the locked channel(s).

**- Skipping a Channel**

Press <**F1**> button to skip / un-skip the selected channel(s).
The icon ⊖ will show for the skipped channel(s).

**- Rename a channel**

1. Press <**F2**> to rename a select channel.
2. Enter the new name by using on screen key board
3. Press< ↩ > and select 'OK' to save.

**- Channel Groups**
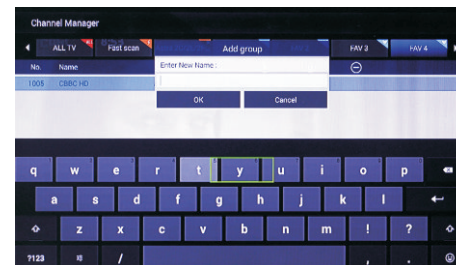

Use < ◄ > and < ► > to change between groups.
Personal groups (labelled in blue) can be added, deleted and renamed.
Default groups (labelled in orange) cannot be deleted or renamed.

• Adding a New Group
1. Use < ◄ > and < ► > to select a personal group then press < ⬤ >.
2. Enter the group name by using on screen keyboard.
3. Press ↩ and select 'OK' to save.

• Deleting a Group
1. Use <◀> and <▶> to select a personal group then press < 🟢 >.
2. Select 'cancel' to exist without deleting or select 'OK' to delete the group.

• Renaming a Group
1. Use <◀> and <▶> to select a personal group then press < 🔵 >.
2. Enter the group name by using on screen keyboard.
3. Press 🔙 and select 'OK' to save.

• Adding Channels to Personal Group
1. Select channel(s) (see Selecting Channels)
2. Press < ⏸ FAV > to add selected channel(s) to a personal group as favourite.
3. Select a personal group press <**OK**> then press < 🔙 > to go back.
4. The icon ⭐ will show for the channels that are in favourite.

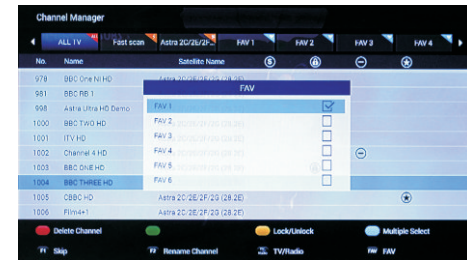

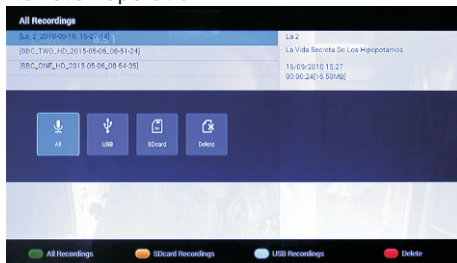

**7.2.3 Recordings Settings**
Press < 🔲 > in DTV mode or select 'Recordings' in the DTV home screen to enter the PVR function.
Use <▲> and <▼> to select a recorded file.

Press <**OK**> to start playback.

Press < 🔵 > to browse USB recordings files.

Press < 🟠 > to browse SD card recordings files.

Press < 📋 > to list all operation

Press < 🔴 > to delete selected file the file.

**7.2.4 DTV settings**
Press < 📋 > in DTV mode or select 'DTV Settings' in DTV home screen to enter the DTV settings.

Use <▲> or <▼> to change between options.
Use <▶> to enter a sub-menu for each option.

-34-

---

In a sub-menu, use <▶> to display the settings.
Press <**OK**> to change the settings.
Use <◀> to back one level.

*- 7.2.4.1 AV Settings*

**- Aspect Ratio**
Select between:
• **Auto**   to adjust the aspect ratio automatically.
• **Full**   to fit the aspect ratio to full screen.

**- Switch Channel Mode**
Select between:
• **Freeze**   to freeze the picture when switching channels
• **Black**   to display a black screen when switching channels

**- Audio Mode**
Select between:
• **Stereo**   to have right and left channel accordingly
• **Left**   to have the left Channel only on both speakers
• **Right**   to have the right channel only on both speakers.
**- Time Setting**
Select between:
• **DTV Time**   which can differ depending of your time zone and the satellite used
• **Internet time**   which will be the time for your actual time zone

**- Channel List Type**
Select between:
• **Simple**   to display the channel list only
• **EPG**   to display the channel with current program information

-35-

### 7.2.4.2 Language

- **Primary Audio Language**    to choose the primary audio language

- **Secondary Audio Language**    to choose the secondary audio language (if available)

- **Primary Subtitle Language**    to choose the primary subtitle language

- **Secondary Subtitle Language**    to choose the secondary audio language (if available)

- **Subtitle**    to enable or disable the subtitles, and select the subtitle option.
Select between:
• **Normal**
• **Hard of Hearing**
• **Off**

### 7.2.4.3 OSD Settings

- **Info Bar Timeout**    to change the display time of the information bar from 2s to 20s
- **Transparency**    to change the transparency of the information bar

### 7.2.4.4 Parental Control
- **Parental Rating**    to choose the parental control age between All (no parental control) or from age 4 to 18

- **Channel Manager**    to turn password protection of the Cannel List between On / Off
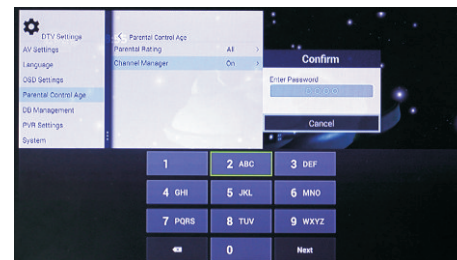

### 7.2.4.5 DB Management

- **Backup**    to save the satellite's channel data to a USB
- **Load**    to load the saved satellite's channel data from a USB
- **Download**    to download the satellite's channel data from internet

### 7.2.4.6 PVR Settings

- **Storage**    to change the desired storage device
- **PVR Duration**    to change the default recording duration
- **Time Shift**    to change the default time shift duration
- **Auto Time Shift**    to enable / disable auto time shift

### 7.2.4.7 System

- **Version**    to view to the current system version
- **Run on Startup**    will give you the possibility to enable / disable auto run for DTV mode on start up
- **Factory Reset**    will proceed to reset the DVB600's DTV mode to default settings
- **System Update**    to update the software for DVB600, please refer to section 7.5.2.7

## 7.3 FAV APP
You can add / remove on the DVB600 your favourite applications to 'FAV' to create a shortcut to access your applications.
1. Select 'FAV' from the home screen.

2. Use the arrow keys to select an application then press OK to add / remove.
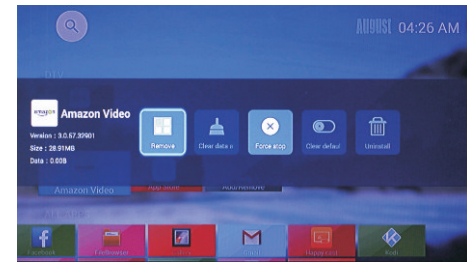

3. Press < ⤺ > to finish editing.

# 7.4 ALL APPS
## 7.4.1 Play Store
Select Play Store to access the Play Store and install new Apps. A google account is required to access the Play Store.

When select one app icon,press < ▤ > to list APP operation.example Remove,Force stop.

## 7.4.2 Movie Player
Select Movie Player to play the video file on the DVB600 or a plugged external USB storage device.
For compatible file format (audio, video and images) please refer to table in section 9. Specifications

### 7.4.3 File Browser
Select File Browser to browse the files contained on the DVB600 or a plugged external USB storage device.

### 7.4.4 Miracast
Select the Miracast to send your smartphone's or tablet's screen to the DVB600 using Miracast. Follow the on screen instructions in order to connect your smartphone or tablets to the DVB600 through the Miracast app.

**Note:** Not all smartphones and tablets support miracast, please consult your devices user manual for details.
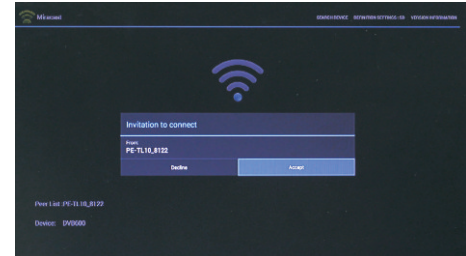

## 7.5 System Settings

### 7.5.1 Quick Switch Between Apps

To quickly access running applications, press and hold < 🏠 > from any mode to see the list of the currently running applications.

Use <◄> or <►> to select an application and press <**OK**> to switch;

Press and hold <**OK**> to see more options (remove from list or App info). Press and hold then pull the application icon up to close the application (please use air mouse RC for this action).

### 7.5.2 Settings

Press <**SET**> or Select ⚙ to see the box settings and preferences. This menu lists the main options.

Use the arrow keys to select between the options and press <**OK**> to enter.

For each option, use <▲> and <▼> to select one setting then use the arrow keys to change the setting or press <**OK**> to select.

#### 7.5.2.1 Network

When the Ethernet function is enabled and the cable is plug in, the 'Network' will show the options for Ethernet.

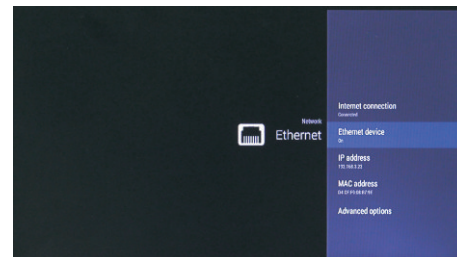

Disable the Ethernet in the 'More Settings' menu or unplug the Ethernet cable. The 'Network' will thus show the options for Wi-Fi.

Select the type of network connection and press <**OK**>to confirm or change the settings for Wi-Fi network.
### 7.5.2.2 Bluetooth

Enables you to turn on/off the Bluetooth function of the DVB600 and to search and pair to Bluetooth devices.
The DVB600 can be paired to Bluetooth Audio Devices such as speakers and Headphones or Bluetooth external devices such as keyboard or mouse.

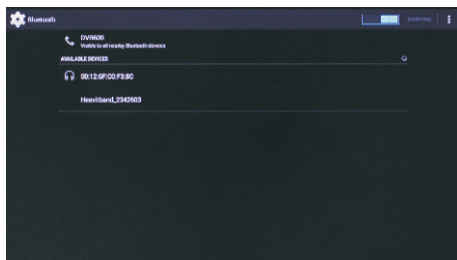

### 7.5.2.3 Display

Change the output resolution and adjust the screen size.

### 7.5.2.4 Audio

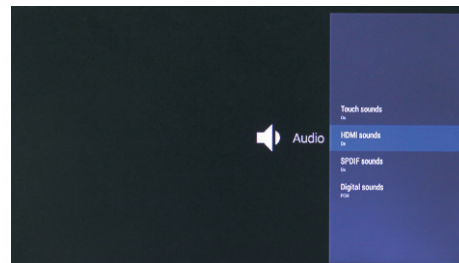

Turn on/off the touch sounds, HDMI audio and SPDIF audio. Change the type of the digital audio.

### 7.5.2.5 Language

Change the system's language

### 7.5.2.6 General

Change the system password. (The default password is '0000')
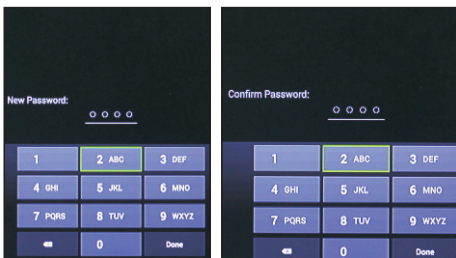

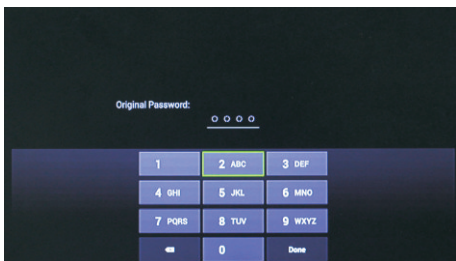

### 7.5.2.7 About

The About menu enables you to see the device's information as well as options for software update and factory reset.

- **Online update**   Select 'Online update' to check if there is a new update available on the server. If a new software version is available, follow the on screen steps to proceed on updating the software of your DVB600.
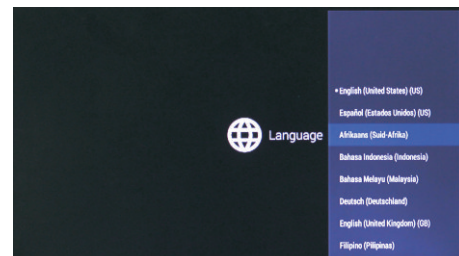

- **Local update**   Local update enable you to update the software version from a local source such as SD card or USB stick:

1. Download the update file from our website
2. Transfer it to an external memory of your choice(SD card or USB)
3. Plug the external memory onto the DVB600.
4. Select 'Local update' then select your external memory.
5. Select the update file then press <**OK**> to confirm.

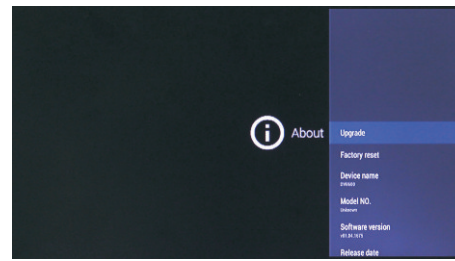

### 7.5.2.8 More Settings
This option will show all Android based system settings.

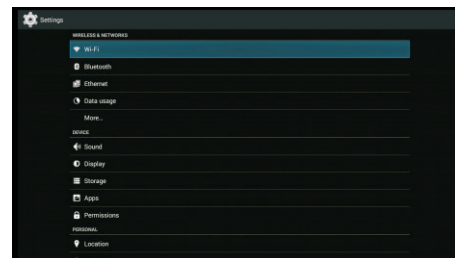

# 8. Troubleshooting

| Problems | Solutions |
|---|---|
| I have updated an app and it now won't load. | Uninstall the app through the Play Store then reinstall it. |
| I cannot update the DVB600. | For online update, check the internet connection. For local update, refer to section 7.5.2.7. If the update failed, power off the DVB600 and start it again. |
| I cannot find any channels. | Ensure the satellite dish and the cables are properly installed and select the correct satellite. For detailed settings, refer to section 7.2. |
| I cannot start recording or timeshift. | Ensure insert a USB storage device with sufficient remaining space. Check the PVR settings on the DTV mode. See section 7.2.4.6 |
| There are no sound on DVB600. | Ensure neither DVB600 nor audio output device is mute. Check the general audio settings. See section 7.5.2. |

## 10. Warranty

This product is guaranteed for twelve months from the date of the original purchase. In the unlikely event of any defect arising due to faulty materials or workmanship, the unit will be either replaced or repaired free of charge (where possible) during this period. An alternative product will be offered in case the product is no longer available or repairable.

**This warranty is subject to the following conditions:**
■ The warranty is only valid within the country where the product is purchased.
■ The product must be correctly installed and operated in accordance to the instructions given in this user manual.
■ The product must be used solely for domestic purposes.
■ The warranty only covers the main units, and does not cover the accessories.
■ The warranty does not cover the damage caused by misuse, negligence, accident and natural disaster.
■ The warranty will be rendered invalid if the product is resold or has been damaged by inexpert repairs. The manufactures disclaim any liability for incidental or consequential damages.
■ Please consult our customer adviser before returning any product; we are not responsible for any unexpected product returns.
■ Any faulty product must be kept and returned in the original packaging with all the accessories and the original copy of the purchase receipt.

The warranty is in addition to, and does not diminish, your statutory or legal rights.

**Customer Service:**
Telephone: +44 (0) 845 250 0586
Email: service@augustint.com

This product is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC. The declaration of conformity may be consulted at August International Ltd, Unit 5 Swains Mill, Crane Mead, Ware SG12 9PY, England.
