# User Manual

Thank you for purchasing the August MB300 Mini MP3 Musicbox with FM Clock Radio. This user manual is designed to familiarize you with all the features of this device. Please take time to read this user manual carefully, even if you are already familiar with a similar product.

## Safety

To ensure the safety of you and others, please read the Safety Instructions before using this device.

Please do not disassemble the MB300, it can be unsafe and will invalidate the manufacturer's warranty.

## Disposal

Please ensure the product and accessories are disposed in compliance with WEEE (Waste Electrical and Electronic Equipment) Directive and other regulations in your country. Always check with the environment agency and any other relevant authorities for current disposal regulations.

## Declaration of Conformity

The Declaration of Conformity can be found on our website at <http://augustint.com/en/declaration/>

## Customer Service:

You can contact us by phone on: +44 (0)845 250 0586 or by email at: [service@augustint.com](mailto:service@augustint.com) should you require further technical support or customer service.

# Quick Start Guide MB300

1. Before using the MB300 for the first time, insert the two AAA batteries into the compartment at the rear of the unit, these batteries are used to backup the time and date settings and do not power the speaker or radio.
2. Charge the internal battery for 3 hours by connecting the power adaptor or USB charging cable to the DC +5v input and the other end to a power source.
3. To set the time, press and hold SET until the minutes begin to flash. Press **VL+** and **VL-** to set the minutes. Press SET to cycle through the settings for minutes, hour, 12/24h mode, year, month and date. Holding **VL+** or **VL-** increases the adjustment speed. Once the settings are complete, press MODE to confirm.
4. To set the alarm, press MODE whilst in clock mode and the current alarm time will display on the screen. Whilst the alarm time is displayed, press and hold SET until the minutes begin to flash. Press **VL+** and **VL-** to set the minutes. Press SET to cycle through the settings for minutes, hour, and alarm type. Holding **VL+** or **VL-** increases the adjustment speed. Once the settings are complete, press MODE to confirm. Pressing mode will return to clock mode. To activate or deactivate the set alarm, press ALARM, a bell icon will show on the screen to indicate an active alarm.
5. To use the MB300 as a radio or speaker, first move the switch at the rear of the unit to the ON position. To play music files from a USB stick or SD card, insert the storage device into the device and press “▶▶”. To adjust the volume use the **VL+** and **VL-** and to change the track use the “◀” and “▶” buttons located on the top of the unit.

To use the FM radio, press RADIO. Extend the antenna and hold “◀” and “▶” to search for a radio channel. Adjust the volume by using **VL+** and **VL-**.

To use the MB300 as a speaker for laptops, mobile phones or other source devices, connect the 3.5mm cable from your source device's headphone or audio out socket to the Line In socket on the MB300. Whilst connected to a source device as a speaker, all volume and track controls can only be made from the source device.

## 6. Alarm Clock

### Set Time and Date

Press and hold SET until the minutes begin to flash. Use VL+ and VL- to set the minutes then use SET to move through the settings for hour, 12/24h mode, year, month and date.

Pressing and holding VL+ or VL- will increase the speed of adjusting.

Press MODE to return to clock mode.

### Set Alarm Clock

Press MODE whilst in clock mode to enter alarm settings mode. The screen will show your current alarm time setting, press and hold SET until the minutes begin to flash to change the alarm settings. Pressing MODE will return to the alarm settings mode.

Use VL+ and VL- to set the minutes then use SET to move through the settings for hour and alarm tone. Once you have setup all your settings, press SET to confirm.

If BIBI is selected a beep will be used as your alarm tone.

If MP3 is selected your pre-selected music file will be used as your alarm tone. (Chapter 8. Music Player for more details).

If RADIO is selected your pre-selected radio station will be used as your alarm tone. (see Chapter 7. FM Radio for more details).

If BIBI or MP3 is selected as the wake-up mode, the alarm will automatically stop after 3 minutes. You can press SNOOZE or LT to reschedule the alarm for an additional 5 minute sleep or press any other key to stop the alarm.

If FM is selected as the wake-up mode, when the alarm is triggered, the snooze function is disabled. The device will enter SLEEP mode and start playing your pre-selected radio station for 30 minutes before turning off. The remaining time left in SLEEP mode will be displayed on the LCD screen.

The alarm can be disabled and enabled by pressing ALARM whilst in clock mode. When the alarm is enabled, the alarm bell icon will show on the LCD screen. Or press MENU button to stop the alarm.

### Sleep Timer

The sleep timer can be set to automatically turn off the radio or music player after a set time period. The duration can be set between 10 minutes and 3 hours in 10 minute increments. The default setting is 30 minutes.

Press ALARM in radio or music player mode and use VL+/VL- to increase and decrease the time. Press ALARM to confirm.

### Temperature Display

Whilst in clock mode, use VL- to switch between temperatures displayed in °C and °F.

## 7. FM Radio

Press RADIO to enter FM mode ◀ and ▶ can be used to tune the radio, pressing and holding them will increase the speed of tuning.

Use VL+ and VL- to adjust the volume.

Press and hold SET to save the current station to memory.

A preset number will flash on the screen, use VL+ and VL- to select which preset to save the station under then press SET to confirm. Up to 20 preset stations can be stored.

Press SET then use VL+ and VL- to choose a preset station.

Press and hold the ALARM button to select the currently playing radio station as your alarm tone. AL SET will flash for 2 seconds indicating that it has been successful.

Press ALARM to set up the sleep timer. Use VL+/VL- to change the time and press ALARM to confirm. Once the set time has elapsed, the MB300 will stop playing automatically.

Press MODE to return clock mode.

## 8. Music Player

This device can play your mp3 format files from a USB stick or card.

Press ► to enter Music player mode. MB300 will automatically start playing music if there is a memory card and/or or USB stick plugged in.

“No Card” will display on the LCD if no memory card or USB stick is plugged in.

“No Song” will show if there are no MP3 files stored on the memory card or USB stick.

Press and hold the ► to switch between playing from the memory card and USB stick.

Use ◀ or ▶ to play the previous or next track.

Use VL+ and VL- to increase and reduce the volume.

Press SET then use VL+/VL- to cycle the equalizer through Rock, Normal, Live, Bass and Classic modes. Press SET again to confirm.

Press SET twice then use VL+/VL- to cycle the playback mode through All, Repeat All, Repeat One and Shuffle (Random), press SET to confirm.

Press and hold ALARM to set the music currently playing as the wake-up music for the alarm clock. “AL SET” will show and flash for 2 seconds.

Press ALARM to set up the sleep timer. Use VL+/VL- to change the time and press ALARM to confirm. Once the set time has elapsed, the MB300 will stop playing automatically.

Press MODE to return clock mode.

**Note:** When both a USB stick and card are inserted into the device, the card will be selected as the default playback source.

**Note:** To use the MB300 as a speaker for laptops, mobile phones and Music Players, connect a 3.5mm cable from the MB300 to the headphone socket of your source device. This will override any music playback.

## 9. Power Supply

This device can be powered by the supplied external AC adaptor, USB cable and built-in Lithium rechargeable battery.

When an external power supply is connected, it will automatically charge the Lithium battery.

The internal battery takes approximately 3 hours to fully charge.

The charging LED lights red whilst charging and turns off once the battery is fully charged.

Power supply to the clock is backed up by 2xAAA batteries. These ensure that the time does not reset when the internal battery runs out.

## 10. Specifications

## 11. Frequently Asked Questions

The problems listed below do not necessarily signify a fault with the device. Please check this list before requesting repairs.

Problem	Possible Cause	Solution
No power	Power adaptor plug loose/faulty or Lithium battery flat.	Check power adaptor plug.
No radio	Signal shield or internal battery flat	Try different locations or plug the AC power adaptor on
Music player not playing	Music file(s) format not compatible or internal battery flat	Convert music file(s) to .mp3 format or plug the AC power adaptor on
The memory card/USB stick with music but says no song	Music file(s) format not compatible or memory card/ USB stick faulty	Convert music file(s) to .mp3 format or try different memory card/ USB stick
Battery cannot be charged or does not last long	The internal battery is too old and needs to be changed	To get battery changed by an authorised professional service provider
Remote control not working	Battery too low	Change remote control battery

### Warning

1. This operation instruction is only intended for reference. No further notice is available to any modification of all information contained therein. Due to continuing improvements, the features and design are subject to change without notice.
2. No user serviceable components are fitted inside this device. Do not attempt any repairs, as this will invalidate the warranty. Any repairs must be carried out by either the manufacturer or their nominated service centre. Parts inside this device are subject to high voltage.

## 12. Warranty

This product is guaranteed for twelve months from the date of the original purchase. In the unlikely event of any defect arising due to faulty materials or workmanship, the unit will be either replaced or repaired free of charge (where possible) during this period. An alternative product will be offered in case the product is no longer available or repairable.

This warranty is subject to the following conditions:

- The warranty is only valid within the country where the product is purchased.
- The product must be correctly installed and operated in accordance to the instructions given in this user manual.
- The product must be used solely for domestic purposes.
- The warranty only covers the main unit, and does not cover the accessories.
- The warranty does not cover the damage caused by misuse, negligence, accident and natural disaster.
- The warranty will be rendered invalid if the product is resold or has been damaged by inexperienced repairs. The manufacturer disclaims any liability for incidental or consequential damages.
- Please consult our customer adviser before returning any product; we are not responsible for any unexpected product returns.
- Any faulty product must be kept and returned in the original packaging with all the accessories and the original copy of the purchase receipt.

The warranty is in addition to, and does not diminish, your statutory or legal rights.
